Unit

Hours

Term

Year

St Date

End Date

Shift

Day of Week (M-Su)

Preceptor Name - this needs to be a text box that info can be entered either by the clinical site or school - also how hard will it be to add columns/fields to this area? (someday may want to break this up into 1st, MI, Last)

Preceptor Email - this needs to be a text box that info can be entered into either by the clinical site or school

Onboarding (Mark: only if CP has onboarding document for experience)

Requirements

Background Information (need to discuss because each school currently will have different --- this is the group/category component we spoke of before)

Immunizations: Flu

Immunizations: Mantoux

Immunizations: Hep B

Immunizations: MMR

Immunizations: Tdap

Immunizations: Chickenpox

Certifications & Licensure: CPR

Certifications & Licensure: CNA

Notes:

Here it is in dropdown mode with categories then subcategories.

See the Essentia and Mayo examples of how it would print out

Basically - users (both CP and EP) may select which order they want the information in. Best way I can see how to describe is the data sort option in excel with levels. I can explain over the phone. Outcome needs to be in excel file
